

ANNUAL PESTICIDE PROGRAM

PTM has extensive working knowledge of all types of Herbicides, Insecticides and Fungicides. PTM will provide all chemicals for the Course and Common areas. PTM will ensure that all chemicals are used, applied, stored and disposed of in total compliance with all Federal, State and local laws and regulations. All chemicals will be turf labeled and applied by a licensed applicator. PTM shall use reasonable care in the selection of the type of chemicals used and shall maintain appropriate records.

- **Herbicides** All Herbicides will be used selectively to achieve the desired results and will be spot treated year round. Round-up in beds will be done continuously.
- **Insecticides** Insecticides will be used in a timely manner in order to achieve maximum control.
- **Fungicides** Fungicides will be used only if/when necessary. It is PTM's policy to use sound cultural practices to control fungus and algae whenever possible.
